About This Content

La mort de Napoléon a toujours été entourée de mystère. Certains disent qu'il fut empoisonné, d'autres pensent que son corps n'a pas tenu le coup et quelques-uns soupçonnent même qu'il se soit échappé de sa prison de Sainte-Hélène. Quelle que soit l'explication réelle, un fait reste avéré : il a disparu de l'Histoire en 1821 et plus personne n'entendit parler de lui.

En 3521, nous avons enfin découvert la vérité sur ces faits. Une vérité que personne n'aurait pu imaginer.

Il avait la technologie.

Il s'est reconstruit.

10V10 more french the better. Am I the only one who got a bit tired of Disco Voltar's healbot music once and a while?

DUCKS OF INCOMING FIRE FROM AKs, PISTOLS, ROCKETS, GRENADES AND ARROWS

OK OK STOP I GET IT! JUST LET ME TYPE!

This skin is awesome! Voltar looks beyond badass, the healbot gets it's own music and the drones get hats and moustaches, right now it's my favourite purchasable skin for Voltar (The S&S skin doesn't count since it's a promo)

Overall a very soild skin, shame it wasn't premium, but who cares? Voltar already has good vanilla voicelines.. It is the best skin ever, first of all it's kinda cheap. Second of all the changes and extra clothes are amazing. I recommend this skin!
